

Product description

For recurrent and predictable traffic, at a fixed rate for a pre-defined period of time.

Product features

Allotments are offered based on:

- Weight and volume
- Pre-defined period of time
- Origin and destination
- Flights and weekdays assortment
- Special contents, if applicable

Most product features and limitations are similar to those for SAS General Cargo, however exceptions may apply.

There are two options for SAS Allotment Cargo, depending on your needs:

Soft block Space Agreement

- Weight Charges, Fuel & Security, where applicable, and other miscellaneous charges will be invoiced for the tendered shipment.
- SAS Cargo reserves the right to amend the allotment size depending on actual utilization.

Hardblock Space Agreement

- Weight Charges will be invoiced for the entire allotment, irrespective of degree of utilization.
- The difference between the full allotment and the tendered shipment will be invoiced separately outside CASS.

Dedicated network

Subject to availability, SAS Allotment Cargo is offered on all SAS flights and trucks.

Flexibility

SAS Allotment Cargo is offered for all contents acceptable for air transportation under the IATA DGR and LAR rules.

When booking your shipment on SAS Cargo's Booking Portal or via the 24/7 Customer Support Center, the maximum dimensions and weights will be checked. See Aircraft and ULD specifications on sascargo.com.

Fast and efficient handling times

Handling times are fast and efficient but also allow for special handling depending on contents.

Typically, handling times are 180 min for short and medium haul flights, and 300 min for long haul flights.

The actual LAT and TOA will appear when booking your specific shipment online. For specific information regarding handling agents, please visit sascargo.com to look up Station and Contact Information.

Access to capacity

On the respective allotments, SAS Cargo plans capacities in accordance with the allotment agreement. Allotments are automatically released in accordance with the deadlines mutually agreed.

If exceeding the weight or volume limits of the allotment, the agent must request this through the SAS Cargo Customer Support Center.

Limitations

Fewest possible limitations apply to SAS Allotment Cargo to ensure a flexible service.

Special handling

Dangerous goods-CAO (cargo aircraft only) and BIG shipments are not accepted.

Booking

Using the new SAS Cargo Booking Portal, you can request, book against, and manage your Allotment Agreements. Click here for [Allotment Request](#). To book against your existing Allotment Agreement click here [Go to Booking](#). You can complete an allotment booking in just 3 steps, get instant confirmation and save up to 90% of normal booking time, along with many other features. The 24/7 Customer Support Center is also available to assist you with your needs.

Acceptance and ready for carriage check

Actual weight, dimensions and contents are checked against booking and Air waybill at acceptance. In case of discrepancies the forwarding agent will be contacted for re-booking and/or re-rating.

Visit sascargo.com to view or download SAS Cargo General Terms for Carriage of Cargo.
