

Product description

Cost optimized

For shipments that are less-time sensitive, above 500 kg and require no special handling.

Product features

Global network

SAS Budget Cargo is offered on selected SAS flights and trucks.

Attractive rates

SAS Budget Cargo is offered for shipments of 500 kg or more and exclusively via SAS Cargo's Booking Portal, enabling a smooth and cost efficient service.

Limitations

To provide attractive rates, SAS Budget Cargo has certain limitations, allowing a cost efficient service.

Special handling

No content requiring special handling codes will be accepted, such as Dangerous goods, Temperature sensitive, Lithium batteries etc. Only exceptions are HER and HEA.

When booking your shipment on SAS Cargo's Booking Portal the maximum dimensions and weights are checked. See Aircraft and ULD specifications on sascargo.com.

Booking

SAS Budget Cargo can only be booked via SAS Cargo's Booking Portal.

No-show/low-show

In case of no-show or low-show, the full weight charge for the booked shipment will be invoiced.

The difference between the booked and the tendered shipment will be invoiced separately outside CASS.

Booking

Booking can be made swiftly and easily on the new SAS Cargo Booking Portal- [Go to Booking](#). By using the Booking Portal, you get an instant overview of products, prices and availability up to 30 days ahead, along with instant confirmation and many other features, saving you up to 90% of normal booking time.

Acceptance and ready for carriage check

SAS Budget Cargo is a non refundable product, bookings cannot be changed. In case of cancellation the customer will be charged for original booked weight charges.

Actual weight, dimensions and contents are checked against booking and Air waybill at acceptance. In case of discrepancies the forwarding agent will be contacted for re-booking and/or re-rating.

Visit sascargo.com to view or download SAS Cargo General Terms for Carriage of Cargo.
