

Product description

Time Optimized

For shipments requiring instant capacity, premium handling and speed.

Product features

Dedicated network

SAS Priority Cargo is offered on all SAS flight and trucks. SAS is continuously working to expand this network to meet your business needs.

With SAS Priority Cargo you get prioritized access to capacity, even when demand is high. Furthermore, SAS Priority Cargo is a must fly product and SAS Cargo will go the extra mile to ensure that your shipment is loaded as planned and arrives at the destination as agreed.

Shortest possible handling times

SAS Priority Cargo export- import and transfer handling times are the shortest possible. This provides the flexibility of late acceptance, early recovery and quick transfer.

Typically, handling times are 120 minutes for short and medium haul flights, and 180 minutes for long haul flights.

The actual LAT and TOA will appear when booking your specific shipment online. For specific information regarding handling agents, please go to Station and Contact Information.

Quick tail-to-tail transfer

At our Scandinavian hubs (CPH/STO/OSL), dedicated quick transfer teams ensure that your SAS Priority Cargo shipment is handled individually, when connection times are short.

Acceptance and ready for carriage check

Actual weight, dimensions and checked against booking and Air waybill at acceptance.

Money Back Guarantee

No. Due to the current situation and possible changes to our traffic program, Money Back Guarantee is withdrawn until further notice.

Limitations

To ensure a prioritized and reliable performance for all SAS Priority Cargo shipments, certain limitations apply.

Special handling

Dangerous goods are not accepted, except for dry ice (UN1845) and biological specimens (UN3373).
Further, Livestock is not accepted.

When booking your shipment on sascargo.com or via the 24/7 Customer Support Center, the maximum dimensions and weight are checked.
